Meetings

First Meeting

23 August 2023 / ROOM D-243

Attendees:

- Ariel Jacob Wazana (TL)
- Yaman Alhamamy
- Kevin Judal

Decisions:

- Agreement on methods of communication:
    - Discord
- Agreement on meeting times:
    - Mondays: 12:30 PM – 1:30 PM (At school – Mandatory)
    - Wednesdays: 10:30 AM – 11:30 AM (At school – Mandatory)
    - Whenever the course instructor allows (During class)
- Consensus on making a website or web application
- Consensus on the coding languages that will be used:
    - HTML, JavaScript, PHP
    - C#, Database

Work done:

- Ariel created the Google Docs for the meeting agenda;
- Yaman created the Discord private group chat;
- Yaman also created the Github repository:
    - Github: https://github.com/ZYMNZ/SystemDevProject.git
- Ariel wrote the minutes document; and
- The entire group discussed about the potential clients:
    - Alex's Snake Project
    - Kevin's Restaurant

Second Meeting

24 August 2023 / ROOM D-243

Attendees:

- Ariel Jacob Wazana (TL)
- Yaman Alhamamy
- Kevin Judal

Decisions:

- The entire group needed to meet both potential clients before confirming their project.

Work done:

- The entire group went over the project's guidelines, and brainstormed some ideas on achieving this project through a technical and theoretical sense; and
- The entire group discussed more information about Kevin's client.

Third Meeting

04 September 2023 / Discord Call

Attendees:

- Ariel Jacob Wazana (TL)
- Yaman Alhamamy
- Kevin Judal

Decisions:

- Consensus on the project we want to implement, the restaurant; and
- Distributed the roles for the project.

Work done:

- Ariel and Yaman wrote down the topics needed to be discussed in the meeting;
- The entire group discussed and chose the client, restaurant as their project;
- Kevin had a meeting with the client and gave more details about the project; and
- The entire group talked about the distribution of roles:
    - Ariel: Back-end, …, Chairman, Analyst
    - Yaman: Database, …, API
    - Kevin: Front-end, Back-end, Collecting of data, Human Coordinator

Fourth Meeting

Attendees:

- Ariel Jacob Wazana
- Yaman Alhamamy (TL)
- Kevin Judal

Decisions:

- Created flowchart on draw.io
- Worked on flowchart and did 60% of it done

Work done:

- Ariel and Yaman wrote down the topics needed to be discussed in the meeting;
- The entire group discussed what needed to be done for this next deliverable
- Kevin and Yaman worked on the initial phase of the application's flowchart
- All of us created Draw.io flowchart and made sure it worked smoothly

Fifth Meeting

20 September 2023 / In-Class & on Discord

Attendees:

- Ariel Jacob Wazana
- Yaman Alhamamy (TL)
- Kevin Judal

Decisions:

- Created initial UML cases to go with the flowchart
- Worked on some more questions to ask Afi (Our client)

Work done:

- Ariel and Yaman wrote down the topics needed to be discussed in the meeting;
- The entire group discussed what needed to be done for this next deliverable
- Ariel and Yaman discussed the theoretical of the UML cases
- Added UML cases to draw.io
- Called Kevin via discord to explain to him the UML diagrams

Sixth Meeting

Attendees:

- Ariel Jacob Wazana
- Yaman Alhamamy (TL)
- Kevin Judal

Decisions:

- Worked on initial UML cases to go with the flowchart
- Worked on some more questions to ask Afi (Our client) and told Kevin
- Kevin drew UML uses cases on paper to create on draw.io

Work done:

- Ariel and Yaman wrote down the topics needed to be discussed in the meeting;
- The entire group discussed what needed to be done for this next deliverable
- Kevin created new UML design
- Ariel and Yaman discussed the theoretical of the UML cases
- Added UML cases to draw.io via Kevin's new design

Seventh Meeting

Attendees:

- Ariel Jacob Wazana (TL)
- Yaman Alhamamy (TL)
- Kevin Judal

Decisions:

- Ariel distributed roles for the user stories, Ariel → Resident, Kevin → Admin, Yaman → Kitchen Staff.

Work done:

- Ariel and Yaman wrote down the topics needed to be discussed in the meeting;
- The entire group discussed what needed to be done for this deliverable #4.
